

Docket E-00000XX-13-0214
Commissioners Wing
1200 West Washington
Phoenix, AZ 85007-2966

Dear members of the Arizona Corporation Commission:

ORIGINAL

As a small business owner in Arizona, I know what it takes to keep one's company running during the hot summer months. Low AC temperatures and ever-higher utility bills are what I'm talking about. Trying to keep my business up and running has been a struggle over the past few summers as a good chunk of my profit goes toward paying my energy bills.

I would like to think that I am quite energy-savvy, and to fix this problem, I have installed some energy-efficient devices into my business. I know that these fixes will conserve energy and lead to some lower bills over time. I would just like to request that you seriously consider implementing the Energy Efficiency Standard as it is the practical solution not only for small businesses like mine, but also for the environment.

Respectfully,

Stephanie Alderete

Arizona Corporation Commission
